

Name \_\_\_\_\_ Architectural style used below \_\_\_\_\_

Design and sketch a building for the vacant lot that uses the **Greek, Gothic, or Dutch Revival**, or the **Brutalist** style. The building should be similar in scale to its neighbors, and you should use all the design elements we observed while out sketching in the neighborhood. When your building is complete, turn the paper over and design a building in one of the other two styles you didn't use on this page.
